Men Aiming Higher (MAH) is an organization that demonstrates and promotes achievement, leadership and goal planning. Mr. Darryl Barnes, President of Men Aiming Higher has assembled an ensemble of individuals, groups, and organizations that believe in the mission and vision that MAH has established and continues to enhance through commitment and dedication.

Men Aiming Higher allows members to contribute ideas, action plans and collaborations that connect resources to the community. The primary outcome for MAH is to reconnect the family: spiritually, emotionally, mentally, and physically. Men Aiming Higher is reconnecting families through mentoring, events, workshops and outside collaborations.

The Men Aiming Higher 10-step program for youth assists in Basic Life Skills, Leadership, Career Development, and Employment Assistance. More importantly, we teach, instruct and demonstrate becoming a person of honor. MAH give mentors an opportunity to give back in the areas of their expertise and passion to the youth and parents that have joined the program/s MAH and other organizations service.

Entrepreneurs' Success Builders Network (ESBN) is a committed partner and will utilize our resources and manpower to building a permanent productive and innovative relationship with Men Aiming Higher.

Sincerely,

Baron J. Howard
Executive Director, ESNB
